- Backend: Node.js, Express.js, Java (Spring Boot)
- Databases: MongoDB, MySQL
- Tools & Platforms: Git, GitHub, Docker, VS Code, Postman
- DevOps & CI/CD: GitHub Actions, Render, Vercel, infinity
- Others: REST APIs, Socket.io, JWT Auth, Cloudinary, AI Integration

### EXPERIENCES

Jan 2023 - Present

#### Web Development Intern — Admire Holidays Pvt. Ltd. from Dwarika Delhi of 4 months

- Designed responsive tourism and booking pages using React and Bootstrap.
- Integrated APIs for destination search and dynamic pricing.
- Improved load speed by optimizing front-end rendering.

#### Full Stack Developer — KismatKiProperty.com from Janakpuri, Delhi of 7 Months

- Developed dynamic property listing dashboards using React.js and Node.js.
- Integrated MongoDB for secure data management.
- Deployed backend using CI/CD pipelines for automated updates.

### EDUCATION

Master of Computer Applications (MCA) — IGNOU University	July 2023- July 2025
Post Graduation of Diploma Computer Application — IGNOU University	July 2023- Feb 2024

### PROJECTS

#### 1. KismatKiProperty.com (Live Project)

Full MERN-based real estate web app for listing, searching, and managing properties. Integrated JWT authentication, and CI/CD for deployment.

#### 2. LMS (Learning Management System)

Created a platform with separate student & teacher dashboards. Implemented course management, authentication, and role-based access using JWT.

#### 3. LogisticsTrans

Developed a full-stack logistics web application using **PHP & MySQL** for backend and **HTML, CSS, JavaScript** for frontend. Built a secure **admin panel** for managing orders, shipments, and users, and successfully **deployed the application on Infinity hosting**.
